

## D210E - The SMART choice for fast, integrated mobile EFTPOS

Mobile EFTPOS is critical in today's business.

In today's world merchants need to ensure their terminals can keep up to speed with the volume of transactions for secure credit, debit and contactless payments while at the same time providing a convenient experience for their customers, taking payments on the go.

A key advantage of the D210E is that you can connect via fixed line Internet (nbn ready), 3G or Wi-Fi, and can also be tethered to a mobile phone or tablet or by using an existing broadband Wi-Fi connection. With an internal printer it's easy to take a payment on the move providing your customer with a receipt.

On the rare occasion you do have any technical issues, Smartpay's (multi-lingual) technical support desk is available 24/7 allowing you to speak with someone who will get you back up and running as soon as possible, with minimum interruption.

The terminal also includes the very latest security measures, with its payment software updating automatically and representing the cutting edge of payment solutions. It can be used as a standalone EFTPOS or linked to an iPad and iPhone or other POS device through our Smartlink integration system.

**Find out how the D210E is your SMART choice for a fast, integrated mobile EFTPOS solution.**

### Ideal solution for

- Hospitality
- Retail
- Taxi's
- Small to medium sized businesses

### Key Features

- Enabled for smartcard, magstripe and contactless transactions including Pay Pass and Tap 'n Go.
- Connects via Ethernet as well as any 3G or Wi-Fi allowing you seamless roaming.
- Links to your POS system and 3rd party applications like Vend, as well as Smartpay's own free Till2Go POS app.
- Includes a 70mm colour screen with easy to understand icons and a 18 line thermal printer.

# D210E - The SMART choice for fast, integrated mobile EFTPOS

## About Smartpay

Smartpay Australia is one of the leading payment solution providers and currently supplies over 45,000 EFTPOS terminals across Australasia. We make payments solutions easy by offering our customers the most feature rich terminals available on the market today including a host of value add-on and integrated applications.

We take the time to understand our customers and their needs, mapping out a solution that delivers and working with them on a quick and easy setup and on-going support as needed. We are committed to providing merchants the best in innovative new technologies.

As the payments industry changes and grows, Smartpay continues to support such changes with mobile payment solutions, contactless/NFC functionality and of course mobile digital wallet solutions ensuring our merchants are prepared for these changes.

**We make payment solutions easy!**

## Accessories

The D210E has various accessory options which can be viewed online on our website:

Charging/Comms Base (B210)

Terminal Counter Stand

Hanging Cradle

## B210 Charging / Comms Base Station

The B210 with bluetooth or serial communication is typically deployed by merchants in locations with weak GPRS connectivity, such as basement locations, night clubs, or restaurants with till systems in back rooms. The D210E can transmit real-time transactions to the B210 base which then uses the Ethernet / PSTN port to dial out for quick authorization. The B210 with communication also can charge D210E.

## Technical Specifications

Function	Function	Function	Function
<b>Processor</b>	32 bit ARM 11	<b>Card Slot</b>	2 SAMs or 2 SAMs, Dual SIM
<b>Memory</b>	192MB (128MB Flash, 64MB SDRAM) Micro SD (TF card) up to 32 GB	<b>Peripheral Ports</b>	1x Mini USB (OTG), 1x Mini USB (RS232) 1x Power port
<b>Display</b>	70mm TFT colour LCD touch screen	<b>Security</b>	PCI PTS 4x certified
<b>Printer</b>	High-speed thermal printer, speed: 30lps Paper roll width / diameter: 58mm / 40mm	<b>Voltage</b>	Input: 100 - 240V AC, 50/60 Hz, 0.8A Output: 9V, 1A
<b>Keypad</b>	10 numeric & 8 function keys	<b>Battery</b>	Li-Ion battery 2300mAh, 7.4V
<b>Magnetic Card Reader</b>	Track1 / 2 / 3, bi-directional	<b>Physical</b>	Length: 162.5mm Width: 80mm Height: 56mm
<b>Smart Card Reader</b>	EMV L1 & L2 certified	<b>Weight</b>	360g with battery
<b>Contactless Card Reader</b>	MasterCard Contactless & Visa payWave ISO14443 Type A/B, Mifare, Felica, NFC	<b>Accessories</b>	Adapter B210 Charging base (optional)
<b>Communication</b>	Bluetooth 4.0 + WiFi +GPRS 3G (WCDMA) (optional)
